PROFESSIONAL SUMMARY

Engineering Manager and full-stack architect with 12+ years building high-traffic web platforms and leading high-performing teams. Specialist in TypeScript ecosystems, React/Node.js, and platform engineering. Scaled engineering teams from 3 to 40+ at Shopify, Twilio, and two venture-backed startups. Deep open source contributor with 8,000+ GitHub stars. Passionate about developer experience, system design, and mentoring engineers.

EXPERIENCE

Senior Engineering Manager - Platform

2021 – Present

Shopify Inc. Ottawa, ON · Remote

- Lead 40-person Platform Engineering team owning Shopify's storefront rendering infrastructure processing 300M+ page views daily
- Architected "Oxygen" — Shopify's edge-native hosting platform for Hydrogen storefronts; reached 12,000+ active merchants in first year
- Led migration from React 17 to React 18 server components across Shopify's storefront codebase; reduced TTFB by 48% on average
- Built TypeScript platform SDK adopted by 4,000+ third-party app developers; reduced integration time from 2 weeks to 2 days
- Established frontend performance culture: implemented Lighthouse CI, Largest Contentful Paint budgets, and automated regression detection
- Grew team from 12 to 40 engineers; achieved 92% annual retention through structured career ladders and 1:1 coaching program

Staff Software Engineer → Engineering Manager

2018 – 2021

Twilio Inc. San Francisco, CA

- Led full-stack development of Twilio Flex (contact center platform) from 0 to GA, acquired by 2,000+ enterprise customers
- Designed component library of 80+ accessible UI components used across all Twilio web products; reduced design-to-code time by 60%
- Built Node.js SDK processing 500K+ API calls/day with TypeScript type safety; increased developer satisfaction NPS by 24 points
- Managed 14 engineers across 3 time zones; introduced async-first engineering culture reducing meeting overhead by 45%

Senior Full Stack Engineer

2015 – 2018

Canva · Sydney (Remote from Austin)

- Early full-stack engineer on Canva's editor team; built collaborative real-time editing features used by 15M+ monthly designers
- Developed Canva's first design export pipeline (PDF, PNG, SVG) handling 2M+ daily exports
- Introduced TypeScript to Canva's codebase; mentored 20+ engineers through TypeScript migration

Software Engineer

2011 – 2015

Rackspace TechnologySan Antonio, TX

- Built internal cloud management portal used by 30,000+ Rackspace customers; reduced support tickets by 40%
- Led rewrite of legacy PHP dashboard to Node.js/React; improved page load speed by 6x
