PROFESSIONAL SUMMARY

Decorated CISO and cybersecurity executive with 18+ years defending critical infrastructure, DoD networks, and Fortune 100 enterprises from nation-state and criminal cyber threats. Led enterprise security programs at Lockheed Martin, Booz Allen Hamilton, US Cyber Command, and Raytheon. Expert in zero-trust architecture, OT/ICS security, threat intelligence, and building mature SOC organizations. TS/SCI cleared. Published author and Congressional testimony expert witness.

WORK EXPERIENCE

Chief Information Security Officer Lockheed Martin

Bethesda, MD

Mar 2020 - Present

- Serve as CISO for \$67B defense contractor with 115,000 employees; oversee 280-person global security organization across 40 countries
- Rebuilt enterprise SOC from Level 1 to Tier-4 mature CSOC; reduced mean detection time from 22 days to 4.2 hours using AI-driven SIEM (Splunk SOAR + custom ML)
- Led zero-trust architecture transformation across 120,000-endpoint enterprise; implemented ZTNA using Zscaler + Illumio, eliminating all implicit lateral movement
- Directed response to 4 nation-state intrusion campaigns (APT41, APT29, Lazarus Group) — zero data exfiltration in all four incidents; coordinated with NSA, CISA, FBI Cyber Division
- Championed \$280M 5-year cybersecurity transformation: SIEM modernization, PAM deployment (CyberArk), UEBA, supply chain risk management (SCRM) program
- Achieved CMMC Level 3, FedRAMP High, ISO 27001, and SOC 2 Type II certifications across all classified program divisions within 18 months
- Filed 2 patents on AI-powered threat correlation algorithms now licensed to 3 US IC agencies

Zero Trust

CMMC

Director of Threat Intelligence Booz Allen Hamilton

McLean, VA

Jun 2015 - Feb 2020

- Led classified threat intelligence programs supporting 5 DoD clients and 3 IC agencies with \$45M program portfolio; managed 65-person team
- Built advanced APT attribution capability integrating HUMINT, SIGINT, OSINT, and technical indicators; attributed 18 campaigns to state actors
- Co-developed US Cyber Command's MITRE ATT&CK-aligned threat actor tracking database, now used across all CCMD J39 elements
- Authored 4 congressional testimony reports on critical infrastructure cyber threats; testified before Senate Armed Services Committee (2018)

MITRE ATT&CK

STIX/TAXII

Recorded Future

ThreatConnect

Senior Cyber Operations Planner US Cyber Command (USCYBERCOM)

Fort Meade, MD

Jan 2010 - May 2015

- Active duty / civilian equivalent senior cyber operations planner for USCYBERCOM J39; planned and executed 40+ authorized offensive and defensive cyberspace operations
- Developed USCYBERCOM's first Operational Planning Guidance for Cyber Electromagnetic Activities (CEMA); adopted as DoD standard doctrine
- Received Defense Meritorious Service Medal and Joint Service Achievement Medal for cyber operations contributions

Senior Security Analyst Raytheon BBN Technologies

Cambridge, MA

Aug 2006 - Dec 2009

- Developed network intrusion detection algorithms for DARPA-funded cyber defense programs; achieved 98.4% detection rate with 0.3% false positive rate
- Built automated malware analysis sandbox processing 50,000+ samples daily, 3 years before commercial equivalents (FireEye, etc.)

KEY PROJECTS

LM Cyber

\$280M 5-year zero-trust transformation program at Lockheed Martin.

EDUCATION

M.S., Information Security

Carnegie Mellon University

2008

CyLab Cybersecurity Fellow · GPA 3.97

B.S., Computer Science & Math

📍 1400 I Street NW, Washington, DC 20004

Transformation

2020–2023

Deployed ZTNA, rebuilt SOC, achieved CMMC L3 across 40 sites. First defense prime to receive CMMC Level 3 certification.

CYBERCOM APT Framework

2013–2015

Classified APT tracking and attribution framework for US Cyber Command. Integrated 12 intelligence sources, tracked 200+ threat actors. Adopted across all CCMD J39 elements.

PUBLICATIONS & TALKS

► 'Zero Trust in Practice' – Wiley, 2022 · 14,000+ copies

► RSA Conference Keynote – Zero Trust Architecture (2023)

► Black Hat USA Talk – APT Attribution at Scale (2019, 2021)

► Senate Armed Services Committee Testimony – Feb 2018, Oct 2022

► IEEE Security & Privacy – 3 peer-reviewed papers (2015–2020)
