

SUSAMA DEVI

Senior Java Developer 📍 Hyderabad, Telangana, India 📞 +91 98765 43210 | ✉️ susama.devi@email.com 🔗 [linkedin.com/in/susamadevi](https://www.linkedin.com/in/susamadevi) | 🐙 github.com/susamadevi | 🌐 susamadevi.dev

PROFESSIONAL SUMMARY

Results-driven Senior Java Developer with over 8 years of experience designing, building, and deploying highly scalable, secure, and resilient enterprise applications. Expertise in Java (8/11/17), Spring Boot, and Microservices architecture within AWS cloud environments. Proven track record of optimizing system performance, reducing latency by up to 40%, and leading cross-functional teams to deliver high-impact software solutions. Adept at fostering a culture of technical excellence through mentorship and robust CI/CD practices.

TECHNICAL SKILLS

- **Programming Languages:** Java (8/11/17), Kotlin, SQL, JavaScript/TypeScript
- **Frameworks & Libraries:** Spring Boot, Spring Cloud, Hibernate, React.js, JUnit, Mockito
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Cassandra
- **Tools & Platforms:** Docker, Kubernetes, Apache Kafka, RabbitMQ, Maven, Gradle
- **Cloud / DevOps:** AWS (EC2, S3, RDS, EKS, Lambda), Jenkins, GitLab CI/CD, Terraform
- **Other Relevant Skills:** Microservices Architecture, RESTful APIs, System Design, Agile/Scrum, TDD, OOP & SOLID Principles

WORK EXPERIENCE

Lead Java Developer *TechCorp Solutions | Hyderabad, India | Jan 2021 – Present*

- Architected and developed a high-throughput microservices-based payment processing system handling 10M+ daily transactions with 99.99% uptime.
- Optimized complex database queries and introduced Redis caching, reducing API response time by 45% and significantly improving overall system throughput.
- Spearheaded the migration of legacy monolithic applications to Spring Boot microservices deployed on AWS EKS (Kubernetes), reducing infrastructure costs by 20%.
- Configured robust automated CI/CD pipelines utilizing GitLab CI and Docker, accelerating deployment frequency by 3x and minimizing human error.
- Mentored a team of 5 junior and mid-level developers, conducting rigorous code reviews and enforcing clean code practices to maintain a 90%+ code coverage.

Senior Java Developer *InnovateX Software | Pune, India | Jun 2018 – Dec 2020*

- Designed and implemented scalable RESTful APIs using Spring Boot, catering to an expanding user base of 500K+ monthly active users.
- Integrated Apache Kafka for asynchronous event-driven communication between services, decoupling business logic and improving system scalability.

- Collaborated with product managers and frontend teams to successfully deliver 3 major feature releases, completing all projects an average of 2 weeks ahead of schedule.
- Automated comprehensive integration testing suites, cutting down manual QA testing time by 35% per release cycle.

Software Engineer *GlobalTech Systems | Bengaluru, India | Jul 2015 – May 2018*

- Developed core backend modules for an enterprise supply chain management platform using Java 8, Spring MVC, and Hibernate.
- Wrote and maintained comprehensive unit and integration tests using JUnit and Mockito, ensuring application reliability.
- Resolved over 150 critical production bugs and performance bottlenecks, leading to a 15% increase in customer satisfaction scores.

PROJECTS

FinConnect - Open Banking API Gateway

- *Tech Stack:* Java 17, Spring WebFlux, OAuth2, AWS API Gateway, Redis
- *Problem Solved:* Needed a secure, unified gateway to route and rate-limit sensitive financial data requests across multiple banking partners.
- *Features Implemented:* Built JWT-based authentication, dynamic routing algorithms, and centralized logging using ELK stack.
- *Results/Impact:* Successfully integrated with 5 major banks, handling peak loads of 5,000 requests per second with zero downtime or security breaches.

E-Commerce Inventory Sync Service

- *Tech Stack:* Java, Spring Boot, Apache Kafka, MongoDB
- *Problem Solved:* Frequent discrepancies between physical warehouse inventory and online store availability causing order cancellations.
- *Features Implemented:* Implemented real-time event streaming and eventual consistency patterns to synchronize multi-region databases.
- *Results/Impact:* Reduced inventory desync issues by 98%, directly contributing to a 12% increase in quarterly revenue retention.

ACHIEVEMENTS

- **"Developer of the Year" Award (2023):** Recognized at TechCorp Solutions for outstanding architectural contributions to the payment system overhaul.
- **1st Place, InnovateX Hackathon (2020):** Led a team of 3 to build an AI-powered log analysis and anomaly detection tool in 48 hours.
- **Performance Recognition:** Consistently rated in the top 5% of engineers for delivery speed and code quality over 4 consecutive review cycles.

CERTIFICATIONS

- **AWS Certified Solutions Architect – Associate** | Amazon Web Services | 2022
- **Oracle Certified Professional, Java SE 11 Developer** | Oracle | 2020

EDUCATION

Bachelor of Technology in Computer Science and Engineering *National Institute of Technology (NIT), Warangal* | 2011 – 2015

- CGPA: 8.8/10 (First Class with Distinction)

LEADERSHIP & EXTRACURRICULAR

- **Technical Speaker:** Presented "Transitioning from Java 8 to Java 17 in Enterprise Apps" at the JavaUG Hyderabad meetup (2023).
- **Open Source Contributor:** Actively contribute to Spring Cloud Gateway repository (2 merged PRs improving routing efficiency).
- **Volunteer Mentor:** Mentor graduating computer science students on system design and interview preparation through local coding bootcamps.

LANGUAGES

- English (Fluent / Professional)
- Hindi (Native)
- Telugu (Conversational)
